Healthy Interiors Product List

Safer Chemicals Challenge, Version 2.0
Haworth’s commitment to people and planet ensures our products listed in this document meet the Healthy Interiors goal of the Safer Chemicals Challenge, Version 2.0.

Products are subject to compliance exceptions around finishes and specification. Please refer to page 15 for further guidance.

Additional Haworth products are available as well, pending discussion on finishes, options, etc. Please refer to the list of Haworth approved fabrics, which also meet the Healthy Interiors goal, found at surfaces.haworth.com/resources.

Haworth Product Compliance Guidance

FORMALDEHYDE
Haworth products listed are GREENGUARD certified and meet the Environmentally Preferred Sourcing specifications for low formaldehyde emitting. These products have been tested in accordance with ANSI/BIFMA Standard Method M7.1-2011 (R2016) and comply with ANSI/BIFMA e3-2014 Furniture Sustainability Standard, credits 7.6.1 and 7.6.2.

GREENGUARD certificates are available at spot.ul.com.

PER- & POLY-FLUORINATED COMPOUNDS (PFCS)
Most standard Haworth fabrics do not contain PFC-based, stain- and water-repellent treatments, unless treatment is specified by the customer. A list of fabrics that meet Environmentally Preferred Sourcing specifications and Haworth performance standards is available at surfaces.haworth.com/resources.

Customers are responsible for COM fabric treatments and chemical content.

FLAME RETARDANTS
Haworth products listed meet the Environmentally Preferred Sourcing specifications for flame retardants, excluding CAL133 specifications.

Customers are responsible for COM treatments and chemical content.

POLYVINYL CHLORIDE (PVC)
Haworth products listed are PVC-free with the following exceptions:

Certain products include PVC material associated with electrical components. PVC content is less than 1% of the total product weight, which meets the Healthier Hospitals guideline exemption.

Compliance excludes vinyl (PVC) finishes.

Customers are responsible for COM fabrics.

ANTIMICROBIALS
Most Haworth fabrics are antimicrobial free unless treatment is specified by the customer. A list of fabrics that meet Environmentally Preferred Sourcing specifications as well as Haworth performance standards is available at surfaces.haworth.com/resources.

Surface finishes associated with Haworth Health Environments products may contain an antimicrobial additive for the sole purpose of preserving the product, which is acceptable by the Healthier Hospitals guidelines. Customers do have the choice of specifying products free of this antimicrobial additive.

Customers are responsible for COM fabric treatments and chemical content.
Furniture described herein meets the Environmentally Preferred Sourcing specifications according to the manufacturer. Practice Greenhealth does not verify this information.
